Internet Camera

The perfect solution for remote monitoring your home or office!

Let's say you are travelling and like to check your home once in a while. You are visiting your neighbours and like to check up on your children. Somebody is at your door. Wouldn't you like to keep an eye on your home in these situations?

The Eminent Internet Camera is a high-quality security camera that you connect to your (modem) router. Subsequently you are able to monitor your home or office from every location. Watch live video and automatically receive emails that report any movement. Even better: the enclosed surveillance software allows you to connect up to 16 cameras simultaneously! Even at night the Internet Camera performs well, due to the built-in infrared leds. Use the Eminent Internet Camera and nothing will get by you!

- Watch live video images via the Internet
- Detects any movement and sends alarm signals by email
- Fitted with 6 infrared leds for night vision
- Surveillance software supports up to 16 cameras

Easy installation | **Accessible** helpdesk | **Multilingual** user manual | **5-Year** warranty
